

DR. ALEX R. CHEN

Senior AI Research Scientist & Lead Engineer

Email: alex.chen@example.com | Phone: +1 (555) 382-9102 | Location: San Francisco, CA

SUMMARY

Passionate Machine Learning Engineer with 8+ years of experience building scalable Intelligent Document Processing (IDP), Vision-Language Models (LayoutLM, Donut), and Retrieval-Augmented Generation (RAG) pipelines.

WORK EXPERIENCE

Lead AI Engineer ? NeuralDoc Systems (2023 ? Present)

- ? Architected enterprise RAG pipelines indexing 5M+ technical PDFs and contract documents.
- ? Reduced document extraction error rates by 42% using hybrid BM25 + dense vector retrieval.
- ? Integrated multi-modal LLMs for automated invoice key-value field extraction.

Senior ML Engineer ? VisionTech Labs (2020 ? 2023)

- ? Fine-tuned LayoutLMv3 and Tesseract OCR models for multi-lingual scanned receipts.
- ? Engineered high-throughput Python FastAPI microservices handling 1,000 requests/second.

EDUCATION

Ph.D. in Computer Science ? Stanford University (2016 ? 2020)

Specialization: Deep Learning for Visual Layout & Natural Language Processing.

TECHNICAL SKILLS

- ? Languages: Python, C++, SQL, JavaScript (ES6+)
- ? AI/ML: PyTorch, Hugging Face Transformers, OpenCV, PyMuPDF, PyTesseract, Gemini API
- ? Infrastructure: Docker, FastAPI, PostgreSQL, Redis, RabbitMQ
